Purpose and boundary

Check completeness of actual employee-selected Form I-9 records without deciding identity or employment eligibility.

Bind exact selected form edition, worker, hire/inspection dates, required section fields and signatures to source-approved completion rules. Check the employee-selected List A or List B plus C path and declared combination count, document titles/authorities/numbers, stated expiration/receipt/extension evidence and actual ordered completion. Flag missing facts and contradictory document paths. Do not require a particular document or decide genuineness or eligibility.

This browser preparation retains original customer evidence and selected source-approved criteria. Actual manual tests, authorization, delivery, signatures, employment status and legal applicability remain responsible human decisions. PDF checks cover only supported structural indicators, not semantic accessibility or conformance. No external scan, filing, remote AI or provider is called. Exact sources stay in this browser unless explicitly saved through paid private cloud saving.
