Purpose, scope and review method

Maintain a component-level record of an AI system’s models, data services, prompts, tools, providers, versions, licenses and ownership.

1 customer-reported records reviewed at 2026-10-08. 0 review findings.

Scope identities use exact entered text. Multiple records are retained, including older decisions and conflicting declarations.

Dates and review findings never change an entered approval, incident, risk, exception or retirement status.

Checks review customer declarations, recorded dates and internal consistency. They do not authenticate evidence, approve an AI use, determine legal applicability or establish conformity, safety or risk acceptance.

Method 2026-10-08.ai-record-review.1. Component dependencies and terms.

Review findings

The report summarizes the first 0 of 0 findings. Every finding is retained in the workbook, CSV and JSON.

Declared records

This formal review shows the first 1 of 1 records. Field excerpts are limited to 2000 characters. The workbook, record CSV and JSON preserve every record and every field in full. The scoped review CSV retains all task-specific review rows. A recorded status is the customer’s declaration.
