COMPLIANCE WORKING RECORD

License obligation workpaper

Fictional sample. Requires tailoring and responsible review.

Document control

Field	Value
Document type	License obligation workpaper
Document reference	17-licence-obligation-workpaper
Jurisdiction	United States
Version	2026-10-09.local-interchange.1
Status	Named review prepared
Prepared by	Fictional Responsible reviewer
Prepared on	October 9, 2026
Generated	October 9, 2026

Purpose and boundary

Organize declared component license obligations for specialist approval.

Working results use exact local sources and explicitly selected versions. Originals remain unchanged in this browser. No source authenticity, population completeness, vulnerability exploitability, legal applicability, license conclusion, consent validity, food safety or external submission is established.

Method and exact sources

Method revision 2026-10-09.local-interchange.1.

Parse bounded SPDX-style AND, OR, WITH and parenthesized license expressions. Match each exact license term and distribution scope to approved obligation records. Preserve alternative OR branches rather than representing every alternative as mandatory. Missing approvals, unknown terms and conflicting obligation text remain unresolved. This workpaper supplies no license interpretation or compatibility decision.

Working results use exact local sources and explicitly selected versions. Originals remain unchanged in this browser. No source authenticity, population completeness, vulnerability exploitability, legal applicability, license conclusion, consent validity, food safety or external submission is established.

Review result

6 source-linked findings. 0 unresolved or failed findings.

- Parse bounded SPDX-style AND, OR, WITH and parenthesized license expressions. Match each exact license term and distribution scope to approved obligation records. Preserve alternative OR branches rather than representing every alternative as mandatory. Missing approvals, unknown terms and conflicting obligation text remain unresolved. This workpaper supplies no license interpretation or compatibility decision.

- Original files are unchanged. Working artifacts are separate and withheld when their required checks fail.

Measure	Value

Working artifacts	0
Unresolved findings	0

License obligation workpaper

The first 25 working rows appear here. Each working preview is limited to 1000 characters. Complete rows and all exact source values remain in Excel and JSON.

Reference	Working result
COMPONENT1	component id COMPONENT1; component version 1; expression MIT OR Apache-2.0; license term MIT; distribution scope Distributed; role Alternative candidate. Specialist selection required.; obligation id NOTICE1; obligation text Fictional customer-approved notice instruction; approval ref FICTIONAL-APPROVAL; source ref FICTIONAL-SOURCE
COMPONENT1	component id COMPONENT1; component version 1; expression MIT OR Apache-2.0; license term Apache-2.0; distribution scope Distributed; role Alternative candidate. Specialist selection required.; obligation id NOTICE2; obligation text Fictional customer-approved alternative instruction; approval ref FICTIONAL-APPROVAL; source ref FICTIONAL-SOURCE

Source-linked checks

The formal report shows at most the first 100 named check rows and 400 characters per displayed field. Complete values, result columns, sources and output are retained in the Excel and JSON files.

Reference	Result	Finding
Comparison / 2	Recorded	Customer specialist approval retained. Legal meaning is not verified.
Comparison / 3	Recorded	Customer specialist approval retained. Legal meaning is not verified.
Primary / 2	Organized	Expression operators and approved obligations retained without a legal conclusion.

Unresolved items and limitations

- Working results use exact local sources and explicitly selected versions. Originals remain unchanged in this browser. No source authenticity, population completeness, vulnerability exploitability, legal applicability, license conclusion, consent validity, food safety or external submission is established.

Limitations

- Working results use exact local sources and explicitly selected versions. Originals remain unchanged in this browser. No source authenticity, population completeness, vulnerability exploitability, legal applicability, license conclusion, consent validity, food safety or external submission is established.
