Purpose and boundary

Assemble exact transfer facts, destination analysis records, implemented safeguards and an authorized review decision.

Join exporters, importers, destination countries and selected mechanisms to source-backed legal issues. Match risks to actual implemented safeguards, key control, effectiveness and residual reasoning. Detect uncovered risks, wrong destinations and unsupported positive decisions; retain next review dates and unresolved issues.

This customer-prepared control pack retains exact source facts, operative rules, instrument text, responsible decisions and actual execution evidence. It does not determine legal applicability, approve a transfer, authenticate consent, execute deletion, sanitize media or make a filing. Imported non-US instruments require explicit customer approval. Exact originals stay browser-local unless explicitly saved through paid private cloud saving.

- This customer-prepared control pack retains exact source facts, operative rules, instrument text, responsible decisions and actual execution evidence. It does not determine legal applicability, approve a transfer, authenticate consent, execute deletion, sanitize media or make a filing. Imported non-US instruments require explicit customer approval. Exact originals stay browser-local unless explicitly saved through paid private cloud saving.

EDPB: Recommendations 01/2020 on supplementary transfer measures	The recommendations structure transfer mapping, selected tools, destination-law assessment, supplementary measures and continuing review. Source-supported legal analysis records and actual safeguard effectiveness remain customer-reviewed inputs.. Join exporters, importers, destination countries and selected mechanisms to source-backed legal issues. Match risks to actual implemented safeguards, key control, effectiveness and residual reasoning. Detect uncovered risks, wrong destinations and unsupported positive decisions; retain next review dates and unresolved issues. No automated legal applicability or execution authenticity is inferred.
