Purpose and boundary

Prepare separate Washington and Nevada consumer-health-data workflows and notice wording from exact selected rules.

Keep each jurisdiction, notice version, consumer, category, purpose, recipient and approval separate. Compare collection/sharing consent and distinct sale authorization with actual operation timing and source scope. Retain deletion requests, geofence facts, revocation and unresolved execution evidence in their own jurisdiction-specific pack.

This workpaper applies exact customer-selected rules to supplied facts and prepares source-linked decisions and drafts. The customer confirms jurisdiction, coverage, operative rule version, populations and approvals. It does not certify legal applicability, exemption, consent authenticity, DPO appointment, notice delivery or a permitted transaction. Exact originals stay browser-local unless explicitly saved through paid private cloud saving.

Approved scope and privacy decision method

Washington Attorney General: My Health My Data Act guidance	Official Washington guidance addresses distinct collection/sharing consent, sale authorization and consumer rights. Nevada NRS 603A.400 through 603A.550 must remain a separate selected rule and wording source.. Keep each jurisdiction, notice version, consumer, category, purpose, recipient and approval separate. Compare collection/sharing consent and distinct sale authorization with actual operation timing and source scope. Retain deletion requests, geofence facts, revocation and unresolved execution evidence in their own jurisdiction-specific pack. No automated legal applicability or consent authenticity is inferred. Nevada Legislature: Nevada NRS Chapter 603A	NRS 603A.400 through 603A.550 addresses consumer health data, privacy policy, collection/sharing consent, sale authorization, processor contracts and geofencing. Nevada remains a distinct selected regime and wording source.. Exact Nevada rule version, applicability, authorization and source wording require customer confirmation.
